

Grade 5

Table of Contents

Foreword	ix
Preface	xi
Acknowledgments	xiii

Using the Teacher Edition	xiv
Preparing a Lesson	xvi
Scope and Sequence	xviii

Chapter One Place Value of Whole Numbers and Decimals

Lesson	Page	Lesson	Page
1 Place Value to Hundred Thousands	8	7 Decimal Place Value: Thousandths	20
2 Place Value to Hundred Billions	10	8 Comparing and Ordering Decimals	22
3 Comparing and Ordering Whole Numbers	12	9 Rounding Decimals	24
4 Rounding Whole Numbers	14	10 Problem Solving: Decimals	26
5 Using a Problem-Solving Guide	16	11 Chapter One Check-Up	28
6 Decimal Place Value: Tenths and Hundredths	18		

Chapter Two Addition and Subtraction of Whole Numbers and Decimals

Lesson	Page	Lesson	Page
12 Estimating Whole-Number Sums	38	19 Problem Solving: Decimals	52
13 Estimating Whole-Number Differences	40	20 Estimating Decimal Differences	54
14 Adding and Subtracting Larger Numbers	42	21 Making Equivalent Decimals	56
15 Problem Solving: Addition and Subtraction	44	22 Subtracting Tenths and Hundredths	58
16 Estimating Decimal Sums	46	23 Problem Solving: Two-Step Problems	60
17 Adding Tenths and Hundredths	48	24 Adding and Subtracting Thousandths	62
18 Properties of Addition	50	25 Chapter Two Check-Up	64

Chapter Three Multiplication of Whole Numbers

Lesson	Page	Lesson	Page
26 Uses and Properties of Multiplication	74	34 Problem Solving with Two-Digit Factors	90
27 Mental Math: Multiples of 10, 100, 1,000	76	35 Multiplying by a Three-Digit Factor	92
28 Multiples and Least Common Multiple	78	36 More Practice with Three-Digit Factors	94
29 Factors and Greatest Common Factor	80	37 Calculators for Multistep Problems	96
30 Multiplying by a One-Digit Factor	82	38 Exploring Exponents	98
31 Multiplying Larger Numbers	84	39 Lattice Multiplication	100
32 Estimating Products	86	40 Chapter Three Check-Up	102
33 Multiplying by a Two-Digit Factor	88		

Chapter Four Division of Whole Numbers

Lesson	Page	Lesson	Page
41 Exploring Divisibility	112	51 Estimating Quotients with 2-Digit Divisors	132
42 Rules of Division	114	52 One-Digit Quotients	134
43 Quotients and Remainders	116	53 Two-Digit Quotients	136
44 Estimating Quotients	118	54 Adjusting the Estimated Quotient	138
45 Dividing Two- and Three-Digit Numbers	120	55 More One- and Two-Digit Quotients	140
46 Finding Averages	122	56 Three-Digit Quotients	142
47 Dividing with Zero in the Quotient	124	57 Zeros in the Quotient	144
48 Dividing Larger Numbers	126	58 Review: Dividing Larger Numbers	146
49 Problem Solving with One-Digit Divisors	128	59 Problem Solving: Using Statistics	148
50 Division Patterns	130	60 Chapter Four Check-Up	150

Chapter Five Multiplication and Division of Decimals

Lesson	Page	Lesson	Page
61 Estimating Decimal Products	160	66 Dividing Decimals by Whole Numbers	170
62 Multiplying a Decimal by a Whole Number	162	67 Dividing Decimals Using Zeros	172
63 Multiplying Decimals	164	68 Dividing Decimals by 10, 100, and 1,000	174
64 Multiplying with Zero in the Product	166	69 Problem Solving: Division of Decimals	176
65 Problem Solving: Multiplication of Decimals	168	70 Chapter Five Check-Up	178

Chapter Six Geometric Properties

Lesson	Page	Lesson	Page
71 Line Relationships	190	79 Solids	206
72 Naming Rays and Angles	192	80 Problem Solving: Polygons and Solids	208
73 Pentominoes	194	81 Circles	210
74 Using a Protractor	196	82 Line Symmetry	212
75 Classifying Triangles	198	83 Motion in Geometry	214
76 Problem Solving: Rays, Angles, and Triangles	200	84 Congruence and Similarity	216
77 Polygons	202	85 Chapter Six Check-Up	218
78 Quadrilaterals	204		

Chapter Seven Number Theory and Fractions

Lesson	Page	Lesson	Page
86 Reviewing the Meaning of Fractions	228	92 Least Common Multiples	240
87 Equivalent Fractions	230	93 Comparing and Ordering Fractions	242
88 Fractions and Decimals	232	94 Improper Fractions and Mixed Numbers	244
89 Prime and Composite Numbers	234	95 Problem Solving: Fractions	246
90 Greatest Common Factor	236	96 Chapter Seven Check-Up	248
91 Fractions in Simplest Form	238		

Chapter Eight Addition and Subtraction of Fractions

Lesson	Page	Lesson	Page
97 Add and Subtract Like Fractions	258	104 Related Denominators	272
98 Add and Subtract Mixed Numbers	260	105 Add with Unlike Denominators	274
99 Rename Sums of Mixed Numbers	262	106 Subtract with Unlike Denominators	276
100 Subtract from Whole Numbers	264	107 Add Mixed Numbers	278
101 Rename and Subtract Mixed Numbers	266	108 Subtract Mixed Numbers	280
102 Estimate Sums and Differences	268	109 Problem Solving: Using a Map	282
103 Least Common Denominators	270	110 Chapter Eight Check-Up	284

Chapter Nine Multiplication and Division of Fractions

Lesson	Page	Lesson	Page
111 Multiply Fractions Using Models	294	116 Estimate Products	304
112 Multiply Fractions	296	117 Divide Fractions Using Models	306
113 Multiply Fractions and Whole Numbers	298	118 Divide by Fractions	308
114 Multiply Mixed Numbers	300	119 Problem Solving: Find a Pattern	310
115 Problem Solving: Multiply Fractions	302	120 Chapter Nine Check-Up	312

Chapter Ten Ratios, Proportion, and Percent

Lesson	Page	Lesson	Page		
121	Exploring Ratios	322	128	Fractions and Percent	336
122	Finding Equal Ratios	324	129	Decimals and Percent	338
123	Exploring Proportions	326	130	Using Mental Math to Estimate Percent	340
124	Solving Proportions	328	131	Finding Percent	342
125	Problem Solving: Scale Drawings	330	132	Problem Solving: Percent	344
126	Exploring Percent	332	133	Chapter Ten Check-Up	346
127	Ratio and Percent	334			

Chapter Eleven Measurement

Lesson	Page	Lesson	Page		
134	Customary Units of Length	356	139	Metric Units of Length	366
135	Customary Units of Capacity	358	140	Metric Units of Capacity	368
136	Customary Units of Weight	360	141	Metric Units of Mass	370
137	Computing with Time	362	142	Problem Solving: Using a Time-Zone Map	372
138	Fahrenheit and Celsius Temperatures	364	143	Chapter Eleven Check-Up	374

Chapter Twelve Area, Perimeter, and Volume

Lesson	Page	Lesson	Page		
144	Area of Rectangles	384	150	Area of Irregular Figures	396
145	Perimeter	386	151	Surface Area	398
146	Circumference	388	152	Understanding Volume	400
147	Coordinate Geometry	390	153	Finding Volume	402
148	Area of Right Triangles	392	154	Problem Solving: Using a Formula	404
149	Area of Triangles	394	155	Chapter Twelve Check-Up	406

Chapter Thirteen Statistics, Graphing, and Probability

Lesson	Page	Lesson	Page		
156	Collecting and Organizing Data	414	163	Statistics and Line Plots	428
157	Reading and Making Bar Graphs	416	164	Range, Mean, Median, and Mode	430
158	Reading and Making Histograms	418	165	Review of Statistics and Graphing	432
159	Reading and Making Pictographs	420	166	Probability of Outcomes	434
160	Reading and Making Line Graphs	422	167	More About Probability	436
161	Circle Graphs	424	168	Chapter Thirteen Check-Up	438
162	Problem Solving: Interpreting Graphs	426			

Chapter Fourteen Rational Numbers and Review

Lesson	Page	Lesson	Page		
169	Integers	448	173	Cumulative Review: Chapters 3 and 4	456
170	Comparing and Ordering Integers	450	174	Cumulative Review: Chapters 5 and 6	458
171	Application of Integers	452	175	Cumulative Review: Chapters 7–9	460
172	Cumulative Review: Chapters 1 and 2	454	176	Cumulative Review: Chapters 10–12	462
